

GLOBE SINGLE SEATED 2 WAY CONTROL VALVE

SIZE: ½" (15mm) to 16" (400mm)

RATING: ASA 150# to 2500#
(Other standards available on request)

FEATURES:

- ◆ Precision control.
- ◆ High flow capacity and high gain.
- ◆ Excellent flow control range ability.
- ◆ High range ability using low flow trims.
- ◆ High powered actuator available Pneumatic as well as Electrical.
- ◆ Wide range of interchangeable trim range available.
- ◆ Wide selection of trim sizes and forms.

APPLICATIONS:

- ★ Offers fine control for liquids, oils, gases and steam.
- ★ Suitable for high pressure, high temperature & high pressure drop applications.
- ★ Suitable for fluids like Oxygen, Chlorine, Thermic fluid, Hydrocarbon and Sea water.

Quality Valves you can rely on. Always.
