

PFA LINED GLOBE CONTROL VALVE (BELLOW SEALED)

SIZE: 1" (25mm) to 6" (150mm)
(Higher sizes available on request)

RATING: ASA 150# & Equivalent

FEATURES:

- ◆ Emission free.
- ◆ Easy top entry design easy for maintenance.
- ◆ Vacuum proof, Single piece body.
- ◆ Superior long term performance and maximum corrosion resistance in pure chemical service.
- ◆ Lining thickness is maintained minimum 3 - 4mm for long lasting life of valve.
- ◆ PFA/FEP lined body assembly provides corrosion protection.
- ◆ Heavy duty PTFE bellows (PN 16 rating) design has an enhanced resistance to permeation.
- ◆ All wetted parts checked with spark testing 20 KVA
- ◆ Monitor connection in the bonnet provided specially for critical media.

APPLICATIONS:

- ★ Corrosive chemical use, including most hazardous and toxic fluids.
- ★ Ultimate performance handling Chlorine (Wet & Dry) and Bromine.
- ★ Hydrochloric, Sulphuric, Nitric and Hydrofluoric acids.
- ★ Industrial reagents, Alkaline and strong basic fluids and most organics.

Quality Valves you can rely on. Always.
