

## FORGED GATE VALVES

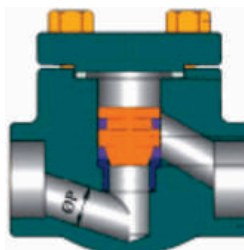

Schematic Representation Only

## FORGED GLOBE VALVES

## FORGED CHECK VALVES

## SALIENT FEATURES :

- Rugged and compact design and offered in the size range 8mm to 50mm (1/4" to 2")
- Bolted Body - Bonnet / Cap Joint with spirally wound stainless steel Gasket for maximum protection against leaks
- Gland Packing Grafoil for high temperature application and corrosion protection

### Gate and Globe Valves have :

- Head Connection to ensure disc-seat alignment
- Outside Screw and Yoke (OS and Y) which prevent corrosion and erosion by the line fluid
- Tapered shoulder on the Stem for back seating
- Full guided Wedge (Gate Valves) ensures no chatter on seat face during closure and eliminates undue thrust on Stem
